EMPLOYMENT HISTORY

Cyber Security Worker, University of Nebraska at Omaha

Aug 2018 – Present

Assisted in the development of an online phishing simulation and training tool called CyberTrust using Ember.js, Django, PostgreSQL, and Docker. Additionally, I worked on a project using the same full-stack structure for lending technology to students and professors around campus, as well as Omaha area teachers.

Front End Cashier, Walmart Neighborhood Market

Jun 2018 – Aug 2018

Greeted customers, collected payments, and answered customer inquiries at my local Walmart Neighborhood Market.

IT System Administrator, Elkhorn Training Camp

Nov 2016 – Jan 2017

Setup and maintained all internal network systems at Elkhorn Training Camp from both a hardware and software standpoint.

EDUCATION

University of Nebraska at Omaha, Cyber Security

Aug 2018 – Present

INTERSHIPS

Cyber Security Intern, University of Nebraska Omaha

Mar 2016 – Aug 2018

I was selected for the IS&T High School Internship Program at UNO where I facilitated the deployment of Facebook's online security platform, along with Ember.js web development for the Nebraska GenCyber Camp.

EXTRA-CURRICULAR ACTIVITIES

President of Computer Science, Millard West High School

Aug 2016 – May 2025

Organized and planned club events for Millard West High School in collaboration with other district schools. Responsible for training incoming and current members of the club to be on a security team which ranked in the top 50 globally.
